Copyrighted 1901, by Henri Beaulieu, Seedsman and Florist, Woodhaven, N. Y. Electros, \$2.00.

THIS ONION originated six years ago from the White Portugal Onion and has stood the test all over the country. As a vegetable, it is a great acquisition. For the market gardener it should prove the most profitable onion to grow, as it can be ready for the market two weeks before any other, even when grown from sets, and can be produced much cheaper.

Cultural & Directions

The seed may be sown any time from July 15 to September 15, in the same latitude as New York. Transplant as soon as large enough to handle, say about October 15, or seed may be sown in rows and when large enough the young plants may be thinned out and remain through the winter, but the better method is to transplant. This is the best onion to eat, has a good flavor, and can be used for slicing or cooking. It is very attractive and sells easily.

Another method of culture is to sow the seed on a hot bed in February and then treat the same as is done to summer sown onions, giving a little protection from the cold when necessary.

As there are many so-called Hardy Winter Onions on the market, be sure to secure the genuine Hardy White Onion, from the introducer only.

Price per lb., \$2.50; per oz., 20c.; per packet, 10c.

GOLD MEDAL PANSY

The Pansy Wonder of the Age.

MME. PERRET.

I am **Sole Agent in the United States for Mme. Perret Pansy Seeds**, and have cultivated this Pansy for the past six years on my Trial Ground at Woodhaven, N. Y. Received for an exhibit of this Pansy an Honorable Mention from the N. Y. Florists' Club on May 13, 1901, and May 12, 1902, and the success of the seeds all over this country has been wonderful.

ITS SUPERIOR QUALITIES.

The New Giant Madame Perret is a wonder and a novelty; it is specially distinguished from all other pansies by the plant being full and spreading, with very broad and extremely dark green leaves; the straight and stiff stems it possesses cause the flowers to stand out well from the foliage. The color of the blossom ranges through all the shades of red, from a pink to a fine deep purple, with an intermediate bright red edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped.

The extraordinary size of the flowers, which reach as much as **3 to 3½ inches in diameter**, makes it a novelty of the first rank, and one that is sure to be sought after by lovers of pansies.

Read Letters from Mr. William Scott, Superintendent of Floricultural Department of Pan-American Exhibition, Buffalo.

BUFFALO, N. Y., August 15, 1901.

BEAULIEU, Florist, Woodhaven, N. Y.

DEAR SIR:—The Pansy Seed you sent me last Fall of the Madame Perret turned out remarkably fine. I planted them out at the Pan-American about the end of April and for two months they were greatly admired. I have never seen finer market flowers, or a better form. They produced two beautiful beds.

Very truly yours,

WILLIAM SCOTT.

BUFFALO, N. Y., April 16, 1902.

BEAULIEU,

DEAR SIR:—I send you under separate cover the diploma of *Gold Medal* I got for pansies. They were your Madame Perrets, and you are very welcome to it. The diploma does not say that it was given for the Madame Perret Pansies, but it was, and you can advertise it so.

Very truly yours

WILLIAM SCOTT.

OZ. \$5.00. TRADE PACKET, 50 CENTS.

COLORED PLATES, 10c. EACH, OR \$8.00 PER 100.

Remember, buy the genuine Madame Perret Pansy Seeds from

MADAME VICTOR VAISSIER, finest
yellow.

I received this year for Uncle Sam honorable mention from New York Florists' Club, June 9th, also from Brooklyn Horticultural Society, July 1st.

N. B.—My dahlias have been awarded three honorable mentions (with thanks) by the New York Florists' Club. A second prize for prize seedlings (50 flowers) at the American Institute, September 24 to 26, 1901. Highest Certificate of Merit for dahlias at Madison Square Garden, October 21 to 27, 1901.

In the winter I import dahlia roots from the best growers of Europe. My collection is up-to-date, and free from disease. Collection of 200 varieties, best for florists' use. Come and see them. You will not regret it.

Price: 25 Cents Each.
